## 5. Compliance Rating and Level

The Compliance Ratings (CRs) are designed to establish a baseline, measure ongoing progress, and encourage CQI. Ratings are given on a five-point scale (0-4) against each component. To calculate the overall Compliance Level (CL) for the relevant quality standard:

1. Add the CR for each applicable component of the QS to get a total number.
2. Divide the total number by the number of applicable components to get the average.
3. Check for the compliance level on the matrix and record on the SAR (see 2.6.2.1 for example).

Rating	Level	Descriptor
N/A	Not Applicable – N/A	The standard is not applicable.
0 – 0.99	Not Met – NM	No evidence of compliance in the organisation.
1 – 1.99	Minimally Met – MNM	Evidence of a low degree of organisation-wide compliance.
2 – 2.99	Moderately Met – MDM	Evidence of a moderate degree of organisation-wide compliance.
3 – 3.99	Substantively Met – SM	Substantive evidence of organisation-wide compliance.
4	Fully Met – FM	Evidence of full compliance across the organisation.

## 7. Conclusion and Outcome

<b>Rating</b>	<b>1.88</b>
<b>Level</b>	<b>MNM</b>
<b>Conclusion</b>	<p>The Quality Review Panel (QRP) had the opportunity to review a range of documentation provided for a desktop review and when requested during discussions. The review was carried out virtually and provided the QRP with the opportunity to discuss a range of topics with the institution’s representatives. The QRP also had the opportunity to review evidence stored on the ICT systems.</p> <p>During discussions representatives demonstrated a significant understanding of their responsibilities for the quality assurance of PHECC approved courses. The evidence indicated and highlighted good quality management/assurance practice in the institution, particularly in the areas of course design and approval. The evidence also clearly indicated the institution’s commitment to quality assurance.</p> <p>The evidence indicated that new and updates to existing documentation and practices would ensure that the quality assurance system remains effective, fit for purpose, and reflective of current practice. The updates would also ensure that the institution continues to meet PHECC education and training standards and quality review framework requirements.</p> <p>The QRP concludes, from the evidence provided, that the implementation of the improvement actions identified during self-assessment and external quality review will lead to an enhanced learning experience for students and institution personnel.</p>
