

Covid 19 Vaccination Patient Contact learning log

Number of days as Vaccinator – Please list the number of days you were vaccinating for.

Location of vaccination centre – Please list the location of the vaccination centre.

Total amount of vaccines administered – Please list the total number of patients vaccinated by you.

List and describe, in detail, the training you underwent to perform the role of vaccinator –

Please list, in detail the training you underwent to perform the role of vaccinator. This should include:

- Online training
- Theory training
- Practical training
- Any further exams undertaken.

Did you receive induction training at the centre? If so, please list what was included in this training –

Please describe the induction, if any, you received in the vaccination centre. This should include:

- Additional safety training
- People skills development
- Public safety
- Familiarisation of the centre
- Familiarisation of the delivery of vaccines etc etc.

While reflecting on your time as a vaccinator, is there any training that you now think should be included for the role?

If you feel you should have received training in an additional specific area, topic or skill, please list this here and include the rationale for the training.

Please reflect on the interactions you had with vaccinators of similar or higher clinical level -

Reflect on the other clinical levels present, any perceived differences in attitude of other levels, your relationship with other vaccinators of a higher clinical level.

Covid 19 Vaccination Patient Contact learning log – Page 2

Please reflect on the patient interaction in relation to the patient's thoughts and feelings of receiving the Covid 19 vaccination -

Did patients feel forced into the vaccine? Were they happy to receive the vaccine?
Was there a difference of opinions of various age groups?

Did you experience any nervous patients and if so, how did you deal with the delivery in contrast to another patient?

Did you experience patients who were nervous because of receiving the COVID vaccine and if so, how were you questioned on it and how did you deal with that?

Did you experience any patients nervous in relation to injections and if so how did you deal with that?

Did you experience any patients who had an adverse reaction to the vaccine? If yes, please expand on their reactions and your involvement of their care -

Did any of your patients react adversely to the vaccine? If so, what signs and symptoms were they displaying?

Were you involved in any treatment of these patients and if so, what did you do?

Which vaccines did you administer? Please reflect on the differences of each vaccine -

List the vaccines you delivered

Was the preparation of the vaccines different? Explain these differences

Please ensure to include a completed vaccinator certificate
